IN RE: ENTERGY POWER GENERATION CORPORATION, HAWKEYE GENERATING, L.L.C.	DOCKET NO. GCU-01-2
--	---------------------

ORDER CANCELING APPROVED APPLICATION FOR CERTIFICATE

(Issued February 17, 2003)

On December 27, 2001, Hawkeye Generating, L.L.C. (Hawkeye), filed with the Utilities Board (Board) an application pursuant to Iowa Code chapter 476A for a generating-facility certificate to construct and operate a 615 MW combined-cycle, natural gas-fired, combustion turbine plant. The application was identified as Docket No. GCU-01-2.

On June 17, 2002, the Board issued an order approving Hawkeye's application with conditions. In the order, the Board stated that a certificate would be issued to Hawkeye when it had given notice to the Board that all of the listed conditions had been met. The Board does not have a record that such notification was provided.

On February 13, 2003, Hawkeye filed a request to cancel its approved application. Hawkeye states that it has canceled the proposed combined-cycle project in Adair County and has sold the proposed site.

The Board finds that the cancellation of the approved application is reasonable, as Hawkeye has terminated its project efforts. If Hawkeye decides to pursue a power generation project in the future, it will be required to file another application.

IT IS THEREFORE ORDERED:

The request made by Hawkeye Generating, L.L.C., on February 13, 2003, to cancel its approved application for a generating-facility certificate to construct and operate a 615 MW combined-cycle, natural gas-fired, combustion turbine plant in Orient, Iowa, identified as Docket No. GCU-01-2, and approved by the Board on June 17, 2002, is granted.
